

# NuVox Services Fact Sheet

## Comprehensive and Customizable Services

NuVox Communications offers small to medium-sized businesses advanced communications services including NuVox's Broadband Bundle, Internet and Web services, data solutions, local and long distance voice, and enhanced ancillary services.

### Broadband Bundle

With the NuVox Broadband Bundle, you will receive a comprehensive communications solution all from one company, all on one bill, all for one price. NuVox bundles together the following services in an easy, cost-effective way

- High-speed dedicated Internet service
- Web hosting
- Local and long distance telephone services

You may also select from several ancillary services\* to complement your bundle offering including voice mail, Web Architect, unified messaging, remote access via dial-up service, audio conferencing and much more.

The Broadband Bundle is the solution for businesses searching for premium, quality communication services in a bundled package at a compelling value.

### Internet and Web Services

NuVox understands the importance of building a Web presence. That's why we offer a broad range of Internet and Web services.

- High-speed dedicated Internet access - Select from a variety of Internet speed from 128kbps to a Full Internet T-1.
- Comprehensive Web hosting solutions - From CGI scripting to database support, NuVox ensures that your business has access to the most advanced Web services.
- Unique Web Design tool - Web Architect enables you to design a complete Web site in five simple steps.

### Data Services

NuVox's premier business communications technology, NuVox Private Network provides wide-area data network connectivity solutions to multi-location customers. These fully digital and private point-to-point or multi-point network configurations are offered in a broad range of dedicated circuit speeds.

### Voice Services

NuVox provides a complete and affordable selection of voice services that meet the needs of your business.

- Local voice services - Whether your business requires business lines, digital trunks, or ISDN PRI services, NuVox will deliver a feature-rich voice package.
- Long Distance - NuVox offers competitive domestic long distance rates, extended area calling plans, calling cards, and International long distance.

### Enhanced Services

To increase your business' productivity and efficiency, NuVox offers a selection of enhanced communications services.

- Audioconferencing - NuVox can coordinate and manage every aspect of your conferencing needs.
- Voice Mail - A simple cost, effective messaging solution.
- Unified Messaging - Provides one-stop access to your voice, fax, and e-mail messages.
