Transcription Services

Precise, Accurate Transcription

With over forty five years of experience delivering document management solutions to the medical marketplace, Electronic Office Systems experience ensures WebScribe is the most reliable, accurate transcription service available.

Dictations Flexibility for Physicians

Physicians don't want to learn new dictation methods...they want to practice medicine. WebScribe technology allows doctors to dictate as *they* prefer via digital portables, Speech Recognition and Telephone call-in dictation.

Timely, Reliable Delivery

WebScribe utilizes the latest technology to receive, transcribe, quality check, and distribute completed documents. Powerful work routing applications enable distribution to multiple physicians, providers, and facilities. All transport methods are secure and ensure rapid delivery of quality-checked work.

Real-world Value for Critical Applications

WebScribe offers competitive, cost-efficient solutions for medical transcription. Because nothing is more important than the production of accurate, timely documents, WebScribe offers key benefits to drive productivity:

- Domestic Transcription
- 24/7 availability of service
- Complete confidentiality with HIPAA enabling technology
- HL7 and Practice Management interface technology
- Report delivery via fax, print, upload, or the Web...with security
- *Electronic Signature*
